*In the event that a shoot-off for a tie cannot be had (one or both shooters are absent), the place is normally determined by the score card with the higher number of 12's. In this case, both shooters had the same number of 12's, 10's, 8's & 5's. So the place went to the shooter who was still present.

Update/Correction:

In the Male Hunter Class, there was actually a tie for 3rd place between Michael Malcik and David Cook. Since they were not present for a tie-breaker, the place went to the shooter with the most 12's on their score card.

Also, please note that if the score you turned in and the score you see posted do not match, it is likely due to a math error. HCB officers check all top scores for accuracy prior to awarding the winners.

Thanks!
